

PROJECT MERRIMACK

26 September 1967

~~XXXXXXXXXX~~ advised that Mr. Helms through Mr. Osborne wants to learn any information from our assets in Women Strike for Peace regarding differences in opinion discussed in private versus what is said in public. ~~XXXXXXXXXX~~ advised that about six months ago a WSP representative "slipped" in one of her remarks giving a different version of w her feelings than what she had given in a public release. Any information of this nature should be reported as soon as possible crediting the source of the comments with particular stress being given to the leadership and to Dagmar Wilson. Any information learned concerning what are the real facts and then ~~wx~~ what is said in public which perhaps is a distortion of the real facts will be of ~~int~~ interestx.
